時季の造形

A panoramic illustration of a coastal scene. In the foreground, a body of water is filled with several traditional Chinese sailing ships, known as junks, with white sails. The ships are positioned across the middle ground, moving towards the right. The background features a range of green, rolling hills and mountains under a pale sky. The water is depicted with soft, wavy lines, suggesting a calm sea. The overall style is characteristic of traditional Chinese landscape painting, with a focus on natural beauty and maritime activity.
